1990 Annual Editorial Index

By Subject and Title

Automation/Technologies/Modernization

	Mo.	Page
Waupaca Foundry Computerizes To Achieve Quality and Growth Goals	Jan.	26
Automating Precision Casting Finishing Rooms	March	47
Automated Sand Molding Systems for the 1990s	May	45
Automatic Pouring Increases Production at Italian Foundry (O/R)	June	64
Robots and Manipulators Make Material Handling Easier and More Efficient	Aug.	47
Harrison Steel Makes Major Capital Improvements	Nov.	20
Material Handling/Robots/Manipulators (DATABOOK)	Dec.	F-1

Computers/Software/Controls/Devices

PCs vs PLCs: The Changing of the Guard?	Jan.	24
Bar Code System Aids Shop Floor Management at Foundry (O/R)	Sept.	89
The Cost of CAD/CAM	Nov.	42

Editorials

Like It or Not, Reagonomics Has Worked	Jan.	5
Walking Away from Greatness	Feb.	5
The Quality Revolution	March	5
Price Still Reigns Supreme	April	5
Persuading More Youngsters To Go for Math and Science	May	5
Was It More Than Foundry Show Euphoria?	June	5
Building a Case for "Report Happy" Foundry Management	July	5
Innovation Should Extend to Leadership	Aug.	23
Reaching Out to New Customers	Sept.	5
Teachers—Newest Unsung Heroes	Oct.	5
FEF Needs Support from the Entire U.S. Metalcasting Industry	Nov.	5
Global Marketing Means "Going Metric"	Dec.	5

Government Affairs/International Events

The New Europe—Its Impact on the American Foundry Industry	April	41
Foundry Show in China Attracts U.S. Exhibitors	Sept.	45

Management/Labor/Marketing

Foundrymen Begin Last Decade of 20th Century with Muted Optimism	Jan.	34
A Special Salute to Lyle R. Jenkins	Jan.	57
Foundry Patterns Reincarnated as Sculpture	Feb.	34
Auburn Foundry Inc.—World Class Producer of Gray Iron Castings	March	30
Management Liability—A Growing Crisis	March	41
The New Europe—Its Impact on the American Foundry Industry	April	41
Importance of OEM Designers Grows in Marketing Communications	April	63
Saturn's Casting Systems Are Production Ready	May	38
Today's Casting Markets—A Mid-Year Overview	June	53
Citation Carolina's Foundries Take Off	July	28
Bearings Keep Foundry Equipment Running	July	43
Honda Completes $800 Million Foundry/Engine Plant Expansion	July	48
Concentration on Quality Turns Around Latrobe Die Casting Co.	Aug.	32
A Progress Report on Diecasting	Aug.	36
Showcase Foundry Features User-Friendly Machines	Aug.	40
U.S. Castings Production in Year 2000 Worth $48 Billion	Sept.	28
Quality Aluminum Casting Expands Its Capabilities	Sept.	37
High School Students Gain Metalcasting Experience	Sept.	78
Investment Caster Tees Up for Long Drive at Golf Market	Oct.	40
Harrison Steel Makes Major Capital Improvements	Nov.	20
Casting Demand Will Drop, But Prices Will Increase in 1990s	Nov.	29
The Cost of CAD/CAM	Nov.	42
Care and Maintenance of Water/Glycol Hydraulic Fluids	Nov.	40
Better Lubrication Practices Save U.S. Pipe & Foundry Co. More than $100,000 (O/R)	Sept.	49
Where-To-Buy Directory	Sept.	123
Where-To-Buy Manufacturer's Directory	Sept.	B-1
Where-To-Buy Product Directory	Sept.	C-1
Where-To-Buy Product Directory Index	Sept.	A-1

Melting/Refractories/Metal Pouring/Filtering

Update on Induction Furnace Technology	Feb.	28
Shot Monitoring System Boosts Diecasting Production Performance (O/R)	March	58
Harrison Plans for the Future with Melt Shop Expansion (O/R)	March	62
Advances in Fossil Fuel Melting Systems	April	26
Induction Batch Melting Offers Iron Foundry Greater Operational Flexibility (O/R)	June	60
Automatic Pouring Increases Production at Italian Foundry (O/R)	June	64
New Perspective on Furnace Refractories	June	37
Automatic Pouring System Increases Productivity at England's Chamberlain & Hill Iron Foundry (O/R)	Oct.	44
Cupola Furnace Operation Reduces Harmful Waste Emissions (O/R)	Sept.	84
Melting/Refractories (DATABOOK)	Dec.	B-1
Metal Pouring/Filtering (DATABOOK)	Dec.	C-1

Metals/Alloys/Casting Processes

Investment Casting Technology Review	Feb.	42
Advances in Diecasting Technology	Feb.	48
Alloys/Metals/Heat Treating (DATABOOK)	Dec.	A-1

Molding/Tooling/Patterns

Today's Methods of Producing Art Castings	Jan.	48
T-Process Casting System	March	38
Foam Pattern Casting Process Is Making Headway	Oct.	20
Molding/Tooling (DATABOOK)	Dec.	E-1

Safety/Health/Environment

Rethinking Sand Reclamation	March	52
Conbraco Reclaims Brass Foundry Sand (O/R)	March	58
Minimizing Waste Cuts Disposal Hassles	Sept.	67
Cupola Furnace Operation Reduces Harmful Waste Emissions (O/R)	Sept.	84
Guidelines for Personal Protection with Molten Aluminum	Oct.	34

Sand/Binders/Sand Preparation/Coremaking

Rethinking Sand Reclamation	March	52
Conbraco Reclaims Brass Foundry Sand (O/R)	March	58
Automated Sand Molding Systems for the 1990s	May	45
Cupola Furnace Operation Reduces Harmful Waste Emissions (O/R)	Sept.	84
Today's Resin Binder Processes for Coremaking	Nov.	32
Maynard Steel Castings Co. Installs New, Efficient Sand Reclamation (O/R)	Nov.	48
Circular Screen Separation Helps Brass Foundry Cut Tramp Metal 75% (O/R)	Nov.	48
Sand/Binders/Sand Preparation/Coremaking (DATABOOK)	Dec.	D-1

Shakeout/Cleaning/Finishing

Automating Precision Casting Finishing Rooms	March	47
Impregnation Boosts Quality for British Automotive Foundry (O/R)	June	62
Mid-Frequency Shakeout Eliminates Thin-Wall Casting Breakage Problem (O/R)	Sept.	84
Superior Die Set Installs CNC Machining Center to Increase Production (O/R)	Sept.	86
Shakeout/Cleaning/Finishing (DATABOOK)	Dec.	G-1

Testing/Inspection/Measurement

X-Ray System Improves Casting Process Control (O/R)	March	60
Drill and Hole Sizes	May	33
Casting Defect Detection Using Real-Time Radioscopy	May	56
Lab Testing Equipment	June	27
Coordinate Measuring Machines Help Brillion Iron Works Identify and Control Key Casting Parameters (O/R)	Aug.	52
Real-Time X-Ray Enhances Process Control (O/R)	Oct.	45
Testing/Inspection/Measurement (DATABOOK)	Dec.	H-1

Trade Shows/Associations/Societies

Engineering Students From Coast to Coast Meet Metalcasters at FEF Conference	Jan.	48
ACMA Prospers by Advancing Interests of Members	Feb.	39
Investment Casting Technology Review	Feb.	42
Advances in Diecasting Technology	Feb.	48
AFS Casting Congress and Exposition Was an Early Sellout	April	63
AFS Congress and Show Reflect Foundry Industry Confidence	June	36
Highlights: 1990 AFS Casting Congress—Part 1	June	41
FEF Meets to Elect Officers and Admit New School	July	49
Highlights: 1990 AFS Casting Congress—Part 2	Sept.	51
Technical Societies, Associations, and Government Offices Directory	Sept.	D-1
Investment Casters Head for Dallas	Oct.	28

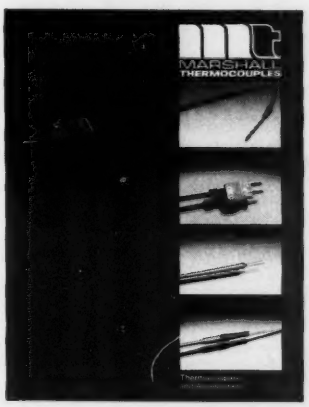
25% more pours from every tip!



Free guide to long-life thermocouples can be yours as easy as 1-2-3

Circle Number 123 on your INFO card. Or call 1-800-THERMOC today. Your free guide will show you how to get 25% more pours with Marshall thermocouples' ⅛" protective sheathing.

■ **More accuracy**

Marshall thermocouples exceed the industry standard for accuracy with temperature reading tolerances better than 0.75% in melts up to 2,300°.

■ **Better service. Better price.**

Marshall gives you fast delivery, too. And custom thermocouples and accessories at a less-than-custom price.

■ **Your free guide...**

tells you everything you need to know about thermocouples, thermowells, controllers, pyrometers and accessories. The L. H. Marshall Company, Box 02226, Columbus, OH 43202. Call 1-800-THERMOC. In Ohio, call collect: 614/294-6433. FAX: 614/294-0297.
